Worksheet for Module 2 – Impacts for Ontario Municipalities

In your group, please discuss and note your answers to the following questions:

1. Which climate trends and extreme weather events appear to be affecting your community or region? What are some of the impacts that you have seen?

Climate Trend / Extreme Event	Associated Impacts
Increased average temperature	
Heat wave	
Changes in precipitation patterns	
Intense precipitation	
Storms and high winds	
Other	

2.	Which impacts:	
	•	Occur most frequently?
	•	Have the most property damage associated with them?
	•	Are the greatest risk to health and safety?
	•	Are the most disruptive to municipal services and departments?
		Are the most costly to repair and clean up?

Surprised you?
