

Durham Community Climate Adaptation Plan

Presenter: Caitlin Rochon, Program Coordinator – Climate Change, Regional Municipality of Durham

Date: Tuesday August 29, 2017

Time: 1:00pm-2:00pm EDT (please note your time zone)

Cost: Free!

This webinar will provide an overview of the Durham Community Climate Adaptation Plan. Topics will include the future climate conditions projected for Durham region in the 2040's, the collaborative process undertaken to develop the Plan and an overview of the sectors addressed and programs identified to adapt. Caitlin will outline some of the struggles experienced in developing the plan, the keys to success, and how Durham is transitioning to implementation. To view the Durham Community Climate Adaptation Plan, please visit:

Caitlin Rochon

Caitlin graduated with a Bachelor of Science with specialization in Environmental Science from Trent University. She joined the Toronto and Region Conservation Authority the same year and worked the first few years of her career in erosion control and flood risk management. Caitlin joined the Region of Durham's Policy and Strategic Initiatives department in 2016 where she has been applying her knowledge and experience of climate change and emergency management to the implementation of the Durham Community Climate Adaptation Plan.
