

# PARTNERING WITH FIRST NATIONS TO ADDRESS CLIMATE CHANGE

ONTARIO CENTRE FOR CLIMATE  
IMPACTS AND ADAPTATION  
RESOURCES (OCCIAR)

The Ontario Centre for Climate Impacts and Adaptation Resources (OCCIAR) is partnering with the Ontario First Nation Technical Services Corporation (OFNTSC) to build capacity within Ontario First Nations to address the impacts of climate change. The project will include:

1. Building the technical capacity required for First Nations to participate in economic opportunities associated with Ontario's proposed cap and trade program;
2. Developing adaptation strategies for First Nation communities to prepare for the effects of climate change; and
3. Conducting a Climate Change Impact Study for the north.
